Summary

Motivated and detail-oriented front-end developer from Pokhara, Nepal, passionate about programming and continuous learning. Skilled in React, Next.js, TypeScript, Firebase, and Tailwind CSS, with hands-on experience through various Projects.

Skills

Frontend - HTML, CSS, Tailwind CSS, JavaScript, TypeScript, ReactJS, NextJS

Database - Firebase

Tools and Platforms - Git, GitHub, Postman, Jira

Experience

Junior FrontEnd Developer

October 2024 – Present

Nipuna Prabidhik Sewa, Pokhara

- Developed and maintained the **Frontend of E-Mart** using **React, JavaScript, Tailwind CSS, and Firebase**, ensuring responsive and user-friendly interfaces.
- Collaborated with backend and mobile teams to integrate data and maintain consistent UI/UX across platforms.
- Worked on **Customer Relationship Management (CRM)** project using **Next.js, TypeScript, Tailwind CSS, and GitHub**, focusing on clean, scalable, and maintainable code.
- Optimized component performance, improved loading speed, and contributed to UI enhancements through regular code reviews.

FrontEnd Developer Intern

April 2023 - October 2024

Nipuna Prabidhik Sewa, Pokhara

- Gained hands-on experience with **React, Next.js, TypeScript, Tailwind CSS, Firebase, and API integration** while developing real-world projects.
- Built projects like **Weather Forecast** and **E-mart Clone**, focusing on responsive design and seamless user experience.
- Implemented dynamic UI components and integrated backend data using APIs and Firebase.
- Collaborated with team members, practiced version control with **Git/GitHub**, and followed best coding practices for clean, maintainable code.

Projects

Inventory App

- Worked on a comprehensive **inventory management system** for mobile shops to track products, sales, profits/losses, and repair services using **Next.js, JavaScript, Tailwind CSS, Electron, Firebase, and GitHub**.
- Provided **real-time insights and detailed reports** to optimize inventory levels and improve operational efficiency through a responsive and intuitive interface.

Customer Relationship Management (CRM)

- Built a **CRM system** to manage and analyze interactions with current and potential customers using **Next.js, TypeScript, Tailwind CSS, Firebase, and GitHub**.
- Streamlined business processes, improved customer relationship management, and enhanced overall profitability through a responsive and intuitive interface.

OS Fruits - E-Mart Admin Site

- Built an **e-commerce admin site** to efficiently manage products, orders, and user data using **React, Vite, Tailwind CSS, Firebase, and GitHub**.
- Ensured a **responsive, fast, and intuitive interface** for administrators, improving operational efficiency and data management.

Weather Forecast

- Build a **user-friendly web application** providing real-time weather updates for multiple locations using **React, JavaScript, Tailwind CSS, and API integration**.
- Focused on **responsive design** and seamless user experience, ensuring accessibility across devices.
